The game is pretty good. I actually projected my own apartment on it . The metric system and the scale is perfect and easy to use. But the best part would be if they would add content for the furniture (sofas , kitchen supplies, tv , bathroom suplies etc.). The game is pretty good. I actually projected my own apartment on it . The metric system and the scale is perfect and easy to use. But the best part would be if they would add content for the furniture (sofas , kitchen supplies, tv , bathroom suplies etc.)
